

# Skills Tasters 2025

Term 1 and 2

Our Skills Taster program allows students to sample aspects from a range of courses delivered by TAFE Queensland.

Each taster is delivered over ten (10) weeks, with Term 1 tasters commencing the week beginning Monday, 3 February 2025, and Term 2 tasters starting the week beginning Monday, 14 April 2025.

The units of competency provide a realistic and practical introduction to the overarching entry-level qualification. Students will gain practical skills in the relevant study area with successfully completed units eligible for credit transfer should they go on to study the full qualification.

## Important information

- Successful completion of a skills taster does not result in the award of a full qualification. However, some tasters may earn QCE credits. Please contact the TAFE at School team for further information.
- Students will be required to successfully complete the assessments to obtain a competent outcome for the identified units.
- For VETiS funding\* eligible students, tuition fees are covered under the funding arrangements.
- Most Skill Taster programs require specific uniforms, which will incur a cost. Please contact the TAFE at School team for any additional information regarding uniform requirements.
- Delivery locations are subject to change. Please refer to the taster in [tafeapply.com](https://tafeapply.com) for the latest delivery information.
